Tim LOUGHTON

*I hope I can count on your vote on December 12th to secure a Conservative majority in Parliament and ensure Boris Johnson can GET BREXIT DONE, ending the damaging dither and delay. We must bring our country back together again, build a strong global future and focus on the issues which so many of us care strongly about: the NHS, education, the environment and policing. As your MP I have always worked hard **NOT** for the many or the few, but for **ALL** the people of Adur & Worthing. Here are three important ambitions I hope you can support:*

OUTSTANDING Worthing Hospital!
Let's make all our local NHS services outstanding

1 FAIR FUNDING AND BETTER OUTCOMES FOR ALL OUR LOCAL SCHOOLS

After our successful fight to secure the record extra £14bn for schools and a fairer funding formula, every school in West Sussex will enjoy some of the largest increases in England, for the next 3 years. Now we need every school, including the excellent academies that Labour want to stop, to improve outcomes so no pupils are left behind.

2 DOING OUR BIT LOCALLY TO COMBAT THE CLIMATE EMERGENCY

Under the Conservatives the UK is leading the world with our commitment to legally binding net zero carbon targets, banning harmful plastics and increasing clean renewable electricity from 6% to 37% since 2010. But we must ALL go a lot further. Since I set up the EYE Project in 2008 thousands of local pupils have become environmental champions shaming us all into doing our bit.

3 HERE TO HELP, ALL YEAR ROUND, WHATEVER THE WEATHER

Whether it's leading the cross party group battling for justice for WASPI Women's pensions, taking part in community clean-ups, standing up for vulnerable children or standing out in the rain at regular street surgeries, I am always around. I enjoy rolling up my sleeves and getting stuck into local issues and I don't propose to change!
